Gary,

Sorry this took so long to get back. I've been playing "find the overlooked emails". Have Dale take a look at your data.

Subject: Delta Shipyard Pits

Guy:

I wanted to see if you could have some take a look at this site (data/map) and give me an idea of what cleanup standard you would use if this was being done by industry through Corrective Action/RCRA Order. I intend to try to solidify/fixate this material in place but wanted to see what would be needed to get RCRA closure. The site is www.epaossc.org/delta_shipyard_pits and the information is under documents.

9522474

I will have to add your person to this site so they can see the information

Thanks
